PROFESSIONAL SUMMARY

12+ years building scalable systems and leading engineering teams. Deep expertise in React, Node.js, mobile (React Native, Android/Kotlin), WebRTC, payments, and healthcare IoT - from system design through production.

CORE COMPETENCIES

Frontend: React, Angular, TypeScript | Mobile: React Native, Android (Kotlin/Java) | Backend: Node.js, Express, WebSockets, microservices | Cloud & DevOps: AWS, Docker, Jenkins, Azure DevOps | Data: MongoDB, PostgreSQL, MySQL

PROFESSIONAL EXPERIENCE

Reliance Jio Infocomm Ltd.

Lead Engineer / Engineering Team Lead | Feb 2019 - Present | Pune, Maharashtra, India

- Led a team of 14 engineers across frontend, mobile, and platform delivery.
- Owned architecture, reliability, and roadmap execution for JioMeet and related platforms.
- Drove technical standards, reviews, and cross-functional alignment with product and infra.

HealthATM India Pvt. Ltd.

Senior Full Stack Developer | Mar 2017 - Feb 2019 | Pune, Maharashtra, India

- Built fintech and healthcare consumer apps at scale using React Native and Android (Kotlin).
- Integrated BLE medical devices, secure APIs, and real-time health telemetry pipelines.

Crystal Hitech IT Solutions Pvt. Ltd.

Sr. Android Developer | Sep 2015 - Feb 2017 | Pune, Maharashtra, India

- Shipped Android features with focus on performance, stability, and code quality.
- Partnered with product and backend teams on end-to-end delivery.

Mindscrub Technologies

Software Developer | Jul 2014 - Aug 2015 | Pune, Maharashtra, India

- Delivered product features with strong attention to quality and iterative releases.

SELECTED IMPACT

- Enterprise video (JioMeet): WebRTC, large sessions, production-scale conferencing.
- Fintech wallet: payments integrations (Razorpay, PayPal, Braintree), resilient transaction flows.
- Healthcare IoT: BLE devices, live monitoring, MongoDB-backed services.
